Dear Corky, 9/17/75

Thanks for the first two of the Sun Meier series. I'm very tired, very far behind, so I've put them aside until I get all 7 when I think reading them all at one time will mean more. Sure glad to get them and appreciate your trouble and thoughtfulness.

Whatever Hall is he has an airtight alibi for 11/22/63, so I'm sure Tatler libbled him. They said he was abroad. I don't know where is, meaning address, but I'd lay odds it is in the LA area.

Unless there is something ot add with a later mailing I'll just hold outo this and let you know when the last comes. Many thanks and best wishes,
